■ Mesh Intercom[™]

Open Mesh™: communication within the same channel. **Group Mesh™**: communication within the same private group.

• For more information on **Mesh Intercom**, refer to the User's Guide.

Note: When Mesh Intercom is on, the SRL-Mesh will automatically connect to nearby SRL-Mesh users and the headset will be in Open Mesh (default: channel 1) initially.

Open Mesh

Channel Setting (Default: channel 1) in Open Mesh

① Enter into the **Channel Setting**.

(2) Navigate between channels. $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ or $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ or $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ (1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots) $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ or $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ or $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ or $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ or $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ (1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)
or $(1 \rightarrow 2 \rightarrow \cdots \rightarrow 8 \rightarrow 9 \rightarrow \text{Exit} \rightarrow 1 \rightarrow \cdots)$ (2 \rightarrow 2 \rightarrow 2 \rightarrow 2 \rightarrow 1 \rightarrow \cdots)
(3) Save the channel.

Note: You can use the **Sena Motorcycles App** to change the channel.

Group Mesh

Group Mesh is a closed group intercom function that allows users to join, leave, or rejoin a group intercom conversation without pairing each headset.

① Users (You, B, and C) enter into Mesh Grouping to create a Group Mesh.

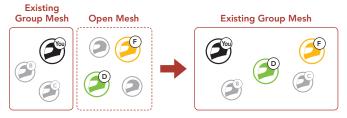

When Mesh Grouping is completed, the users (You, B and C) will hear a voice prompt on their headsets as Open Mesh switches to Group Mesh.

2) Joining an Existing Group Mesh

One of the current users in an Existing Group Mesh can allow new users (one or more) in Open Mesh to join the Existing Group Mesh.

① One (You) of the current users in the Existing Group Mesh and new users (D and F) in Open Mesh enter into Mesh Grouping to join the Existing Group Mesh.

When Mesh Grouping is completed, the new users (D and F) will hear a voice prompt on their headsets as Open Mesh switches to Group Mesh.

Enable/Disable Mic (Default: Enable)

Users can enable/disable the microphone when communicating in a **Mesh Intercom**.

"Mic on" or "Mic off"

Mesh Reach-Out Request

You (caller) can send a request message to turn on the Mesh Intercom to nearby friends who have it turned off.

- ① If you want to send or receive a request massage, you need to enable Mesh Reach-Out on the Sena Motorcycles App.
- While your headset's Mesh Intercom is on, you (caller) send a request message using the headset's Button or the Sena Motorcycles App.

[Caller]

[Caller]

"Mesh reach-out request"

[Nearby Friends]

"Mesh intercom requested"

③ Friends who receive the request message need to manually turn on their Mesh Intercom using the headset's Button or the Sena Motorcycles App.

Reset Mesh

If the headset in an **Open Mesh** or **Group Mesh** resets the **Mesh**, it will automatically return to **Open Mesh (default: channel 1)**.

Bluetooth Intercom

Up to three other people can be paired with the headset for Bluetooth intercom conversations.

Intercom Pairing

There are two ways to pair the headset.

Using the Smart Intercom Pairing (SIP)

SIP allows you to quickly pair with your friends for intercom communication by scanning the QR code on the **Sena Motorcycles App** without remembering the button operation.

- ① Pair the mobile phone with the headset.
- ② Open the Sena Motorcycles App and tap (Smart Intercom Pairing Menu).
- ③ Scan the **QR code** displayed on your friend **(B)**'s mobile phone.
 - Your friend (B) can display the QR code on the mobile phone by tapping → > QR code (🔛) on the Sena Motorcycles App.

- ④ Tap Save and check that your friend (B) is paired with you (A) correctly.
- (5) Tap Scan ([6]) and repeat steps 3-4 to pair with Intercom Friends (C) and (D).

Note: The **Smart Intercom Pairing (SIP)** is not compatible with Sena products that use **Bluetooth 3.0** or **below**.

③ Repeat the steps above to pair with other headsets (C and D).

Last-Come, First-Served

If the headset has multiple paired headsets for intercom conversations, the last paired headset is set as the **First Intercom Friend**.

Two-way Intercom

Start/End Conversation with the First Intercom Friend D

Start/End Conversation with the Second Intercom Friend C

Start/End Conversation with the Third Intercom Friend B

Troubleshooting

Fault Reset

Note:

- Fault Reset will not restore the headset to factory default settings.
- The charging LED is not the **Pinhole Fault Reset Button**. Do not press it.

Factory Reset
