

Q3

Communication System for Bikers Bike-to-Bike Intercom up to 1 km range

The scala rider® Q3 makes riding in small groups really fun! With its stylish and aerodynamic design, it offers intercom toggling among 4 riders at a range of up to 1 km.*

The Q3 will simultaneously connect to mobile phones, A2DP (Bluetooth® stereo) music players, and GPS navigation devices. It also has a built-in FM radio with RDS and a cable is provided to connect to older MP3 players.

Click-to-Link® technology, allows Q3 users to join the social roadside revolution and the several hundred-thousand scala riders who already enjoy spontaneous intercom with each other without the need for advance pairing.

While riding with a passenger, the Q3 will allow you to share your favourite music with **Music-Sharing™** technology, so you can both enjoy the same tunes as you get around.

To ensure that your scala rider remains at the forefront of technology, you can update its software online via your Mac or PC.**

The scala rider Q3 comes equipped with interchangeable hybrid and corded microphones providing the ultimate solution for virtually any helmet.
