Eurol SX Sport 2-Stroke

Mineral 2-stroke oil for small air- and water-cooled 2-stroke engines

Description

Eurol SX Sport 2-Stroke is a top quality oil for lubrication of small air- and water-cooled 2-stroke engines (up to 50 cc) with or without injection system, in motorcycles, scooters, pumps, lawn mowers and small generator sets.

Under normal conditions 1:50, unless prescribed otherwise by manufacturer.

"

Eurol SX Sport 2-Stroke is extensively tested and is formulated with selected base oils and additives, providing an optimum lubrication, also at high temperatures and heavy duty operating conditions.

It prevents deposits on spark plugs, pistons, carbon deposits on inlet and exhaust ports, sticking piston rings and pre-ignition.

Eurol SX Sport 2-Stroke protects engine parts against wear and corrosion and it reduces outlet smoke. Due to the low sulphated ash contents, the risk of a burned out piston, caused by pre-ignition or detonation is very low. Eurol SX Sport 2-Stroke easily mixes with (lead-free and super) petrol.

Eurol SX Sport 2-Stroke Blue is a variant that is colored blue for identification in premixed fuel.
