cheek pads and liner, helmet  
bag; additionally: smoked visor,  
visor conditioner, spare screws

Easy to put on, fits like a glove but not so easy to take off

## PROS

Comfortable to put on; excellent fit, pleasant lining; low noise level; perfect easy-to-use visor, very easy to replace visors; stable up to more than 250 km/h (only very minimal reaction - when looking to the side); absolutely no drafts inside; effective head ventilation;

highly suitable for those who wear spectacles; low weight; good impact absorption values on side impact; excellent quality workmanship, five-year guarantee

## CONS

Relatively tight to take off; chin strap cushioning is a little too short; chin ventilation ineffectual; a slightly obtrusive smell when new

Visor is exceptionally easy to use via the central button (left); ample equipment including an extra, tinted visor

## CONCLUSION

Excellent fit, sits well, stable even at very high speeds, exceptional easy-to use visor, good equipment and a solid performance on the impact absorption test - this is what a winner looks like. The very reasonable price just serves to make this lightweight Korean-made helmet even more appealing.

## MOTORRAD

Opinion: very good
